

## SHOT Show 2022:

### Sargent and Greenleaf Launches I-Series Biometric Keypad for Smart Security Across Industries

**NICHOLASVILLE, KY.** – (January 18, 2022) Sargent and Greenleaf™ (S&G), a global manufacturing leader of high-security locks and locking systems, announces the new [I-Series Biometric Keypad™](#), now available worldwide with a full slate of new user-friendly features and benefits. The I-Series is the industry's first and only biometric keypad offering secure, real-time/instant upgrades from the field.

"The new I-Series Biometric Keypad is future-proof; designed to answer end-user needs now, and well into the future," commented Jennifer Cutting, S&G's chief operations officer. "This innovative product replaces standard safe lock keypads with ease of installation, in-field automated updates, and verified-access flexibility."

Designed to meet the growing demand for biometric and network-enabled solutions, the I-Series Biometric Keypad gives the user instant access to the most up-to-date security solutions. As user needs evolve, the I-Series Biometric Keypad evolves in tandem, giving the user full control of their safe security.

#### **I-Series Keypad Features/Benefits**

- **Three secure entry access methods:** Touchscreen Code entry, Biometric Fingerprint entry, and S&G Mobile App entry
- **Premium scratch- and fingerprint-resistant LCD screen** that exceeds UL® impact testing standards
- **User-friendly screen** with clearly visible numbers that illuminate for night usage
- **Impact-resistant design** and tough metal casing for enhanced durability
- **Easy push-button cover removal** for battery change
- **Quick and easy installation** requiring only a standard screwdriver with no drilling needed; fits standard keypad footprints
- **Network (availability Summer 2022) and Bluetooth connectivity capable** for instant upgrades
- **Available in matte black finish**

**Security Reimagined.** With 165 years of security innovation, S&G is now raising the bar with this the smart connected I-Series, designed to meet customer's ever-changing needs. Every S&G solution is carefully designed and rigorously tested against international standards to deliver even

greater value over time. "That's our promise," Cutting added. "We keep an eye on what's ahead, so our customers stay secure."

###

**About Sargent and Greenleaf:**

[Sargent and Greenleaf](#) (S&G) is a leading manufacturer of high security locks and locking systems that protect people and assets around the world. Over the last 165 years, our high-security locks and industry expertise have earned trust from governments, banks, pharmacies, businesses and safe owners of all kinds to meet their security needs and counter emerging threats. The S&G portfolio of high-quality electronic and mechanical locks are used in a wide range of applications including gun safes, commercial safes, ATMs, vaults, and highly sensitive SCIF environments.

The S&G family of brands offers a unique, comprehensive portfolio of lock and door solutions to serve a wide range of security needs across industries and applications.

Through our trusted brands; Delaney Hardware, Sargent & Greenleaf, and Premier Steel Doors & Frames, we offer businesses and homeowners high-quality door hardware and fixtures, commercial-grade doors and hardware, and multi-family and residential security solutions. Together, our mission is to make the world more secure today and in the future.
